BIRDS OF THE CEDARBURG BOG

The Cedarburg Bog system is made up of about 2200 acres that include seven or eight plant communities like conifer and hardwood swamps, sedge meadow, marsh, several lakes, fen, and upland forests. There is public access at the north and south ends of the bog. The UWM Field Station trails are only open to the public for group use arranged in advance or at public events.

Please do not harass or harm the birds you see here.

Like all species lists, this is a work-in-progress. If you see a bird that is not on the list, please report it to Friends of the Cedarburg Bog, c/o UWM Field Station, 3095 Blue Goose Rd, Saukville, WI 53080.

Or use the Friends of the Cedarburg Bog website at <http://bogfriends.org/contact-us>.
